colin gunton was world renowned as a scholar systematic theologian and reformed minister however he never lived to fulfill his ambition to write a book devoted solely to barth gunton on barth is an in depth analysis derived from the lecture course he gave most years at king s college london something of an annual institution it was aimed at undergraduates though the majority of those attending were ma phd students and researchers from america and germany approximately half of the work consists of quotations representing an essential understanding colin was a creative lecturer although he worked from notes he gave space to the free rein of his mind particularly when fielding questions or trying to analyze a particular strand of barth s thought colin s understanding and expertise was world renowned he did not take all barth wrote uncritically he struggled and wrestled with this giant of twentieth century theology as he always said at the beginning of the course not everyone buys into barth i don t all the way along the line as i get older i get more and more dissatisfied with the details of his working out of the faith over the years i think i have developed a reasonable view of this great man who is thoroughly exciting and particularly i can guarantee

if you do this course that you will be a better theologian by the third year whether or not you agree with him he is a great man to learn to think theologically with

karl barth was the most influential theologian of the twentieth century and his work continues to inspire both fresh theological thinking and critical debate the period covered by the volumes in this series 1905 to 1933 saw barth emerge from his training under such theological giants as adolph von harnack and wilhelm herrmann assert his rejection of liberal protestant theology in his towering commentary on romans and work through an earlier uncertainty to become a critic on theological grounds of the rise of nazism these volumes contain essays lectures academic papers correspondences editorials and other writings that were not previously translated into english and that provide insight into the development of barth s theology during this crucial period of his life

volume 2 of these previously untranslated to english works covers the period in barth s career when he served as a pastor first in geneva and then in safenwil and up through the point where his theology takes a decisive turn in response to the outbreak of the first world war

karl barth is widely acknowledged as one of the great theologians of the church this masterful example of theological interpretation of the biblical text presents barth s insights on an important pauline epistle in 1921 22 barth taught a course on the exposition of ephesians at the university of göttingen lecturing from a detailed and carefully researched manuscript the resulting lectures now available in english for the first time introduce theological and exegetical issues pertinent to the study of ephesians introductory essays by world renowned scholars francis watson and john webster are included

in this series of lectures delivered in the period immediately preceding world war ii barth addresses the major topics of systematic theology the reader gets a glimpse of the depth of barth s thinking in these brief discourses which he expanded upon greatly in his major work church dogmatics in an appendix barth answers question from the audience regarding the last essay contents 1 revelation 2 the church 3 theology 4 the ministry of the word 5 the christian as witness appendix

prayer is one of the central activities of christian life this anniversary edition of karl barth s lectures on the lord s prayer along with supplementary essays by

three barth scholars introduces us to what he had to say about this important christian practice for barth the ultimate aim of all theology is worship and here he mines the theological and spiritual wisdom of luther calvin and the heidelberg catechism urging us to participate in the work of god through prayer

the book brings together a set of related studies on the nature of scripture and of christian theology by one of the most prominent representatives of protestant theology of our time after a brief introduction on the setting of the book and its major themes the first part of the volume examines topics on the nature and interpretation of scripture a comprehensive proposal about scripture and its interpretation is followed by a study of scripture as the embassy of the risen christ and by three related chapters analyzing the ways in which widely different major modern theologians barth t f torrance and rowan williams have understood the nature and interpretation of the bible the second part of the volume makes a cumulative proposal about the nature and tasks of christian theology examining the fundamental principles of systematic theology the distinctive role and scope of reason in christian theology the relation of theology to the humanities and the vocation of theology to promote the peace of the church

the t t clark handbook of colin gunton is a theological companion to the study of gunton s theology and a resource for thinking about gunton s importance in modern theology each of the essays brings gunton s depth to a broad range of contemporary theological concerns the volume unveils cutting edge gunton scholarship for a new generation and at the same time enables readers to see the timely significance of gunton today each of the essays not only introduces readers to key themes in the gunton corpus but also provides readers with fresh interpretations that are fully conversant with the contemporary theological problems facing the church designed as both a guide for students and a reference point for scholars the companion seeks both to outline the frameworks of key gunton debates while at all times pushing forward fresh interpretative strategies concerning his thought

robert w jenson 1930 2017 is america s most important theologian he thinks jesus of nazareth is always and for ever one of the trinity mary s boy and pilate s victim is the father s eternal son so there has never been an unfleshed word the god of the gospel is much stranger than we have imagined in jesus in the trinity lincoln harvey offers a penetrating guide into jenson s remarkable proposal demonstrating jenson s signature moves as well as his fundamental re working of the dogmatic tradition harvey shows how an evangelized metaphysics can make sense of the identity of jesus christ with time space causation and god s act of creation utterly re imagined through the course of these pages reality will look very different in light of jenson s startling theology

karl barth s lectures on the first chapter of the gospel of john delivered at muenster in 1925 26 and at bonn in 1933 came at an important time in his life when he was turning his attention more fully to dogmatics theological interpretation was thus his primary concern especially the relation between revelation and the witness to revelation which helped to shape his formulation of the role of the written and spoken word vis a vis the incarnate word the text is divided into three

sections john 1 1 18 19 34 35 51 with the largest share of the book devoted to the first section each section begins with barth s own translation followed by verse by verse and phrase by phrase commentary on the greek text although barth s interpretation is decidedly theological he does take up questions of philology and textual criticism more thoroughly than in his other works much has happened in johannine scholarship since these lectures were first delivered yet they remain valuable today 100 years after barth s birth both for their insights into the gospel and into karl barth

a volume of essays that celebrate and pay tribute to the enormous contribution to scriptural studies that henry wansbrough has made over the last 50 years

in volume i of barth s intensely pastoral gottingen dogmatics the author reflects on the word of god the word that is 1 spoken by god in revelation 2 recorded in holy scripture and 3 proclaimed and heard in christian preaching the other major theme is the doctrine of god

in the theology of colin e gunton a number of contemporary theologians from across the world critically engage with the work of this influential british theologian gunton s handling of the gospel of jesus christ is celebrated key doctrines critically examined and his contribution to the ongoing theological task carefully evaluated contributors address key issues at the centre of gunton s understanding of the christian gospel thereby enabling readers to appreciate how gunton s fundamental analysis of the relation between god creation and jesus christ impacts the church s ongoing task of faithful theological enquiry in this volume of essays contributors explore gunton s constructive thinking on a range of doctrinal topics as well as critically analyze gunton s theological method and use of the christian tradition as such this collection of essays provides the christian theological community with its first wide ranging and carefully argued examination into the influential work of colin e gunton
